

Salesian Elementary - Sick Policy

Please help us keep **ALL** illnesses off-campus. If your child is experiencing **ANY** symptoms, including but not limited to fever, congestion, runny nose, sore throat, cough, body aches, stomach upset, nausea, or vomiting, they should stay home.

Your student may return to campus when symptoms are improving AND are free of fever for 24 hours without the use of fever-reducing medications.

This will help us ensure, to the best of our ability, that all students and staff remain healthy this cold and flu season.

Thank you for being steadfast in your commitment to helping Salesian provide a safe and healthy learning environment for everyone.

Please direct any further questions to healthpoc@salesianschool.org.
